FREMCNT: OHIO. Friday, April 27, 1866.

We have to thank Gen. Buckland for the abridged "Message and Documents," for '65-6. Col. Sawyer, of Norwalk, has been brevetted Brigadier General.

The Union majority on Governor in Counceticut, official, is 541. On the balance of the offores, it averages over 1000.

The Ravanna Democrat, one of the best of the country papers on our exchange list, appears enlarged to nine columns and in a new dress.

- The Bueyrus Journal says it is not true, as reported, that the First National Bank of Bucyrus were connected with Culver, Penn & Co., N. Y., who recently failed in so large a sum .-The Crawford Co. Bank of Pennsylvania cons involved in that failure, as also was Mr. J. Hopley, of Bucyrus.

The Copperheads are telling some of their less intelligent followers that the Civil Rights Bill gives negroes the right to vote, with many similar falschoods. The Civil Rights Bill has no bearidg upon the suffrage question, and only affects negroes by ensuring their rights to life, and property honestly acquired

The Messenger says the fact that Gen. Buckland came all the way from Washington to vote the Union ticket this Spring will seal his political doom. We don't see how the Messenger man found out what the General came home for unless the latter told him in confidence. In such case, it was very cruel of the editor to publish a secret so damaging. Of course, found in that paper, this report will prove disastrous, because everybody will believe it. And yet, once it had been otherwise. There was a time when a Congressman might have taken advantage of a brief recess in official duties to go home, at his own expense, and vote like other people, if he wanted to. We progress. But, seriously, to what desperate straits are men reduced, when they must trump up such silly charges against a faithful public servant. The intelligent voters of the District will not fail to judge that, if such be the ground of opposition to General Buckland, he must indeed be worthy their confidence and esteem.

APPROPRIATION FOR LIGHT HOUSES .-- We find in the "Deficiency Bill," which recently passed Congress, the following appropriations for lights on Lake Erie:

Light House Station, Ohio.
For rebuilding Green Island Lighthouse, O.,
For rebuilding Green Island Lighthouse, O.,
For rebuilding Outer-range lights at Cedar
Folis, Sandusky Bay, Ohio.
For rebuilding Lighthouse at Presque Island

PROCEEDINGS OF CONGRESS. Senate, Aratt 20,-The Pacific Railroad Committee was discharged from the further consideration of the bill to aid the Southern Pacific Railroad. A resolution was passed to extend the time for completing the first 20 miles of the Western Pacific Railroad to January 1. 1867. The bill to amend the habeas corpus act was taken up. Mr. Edmund's amendment limwas taken up. Mr. Lemana samenament im-ting the act to States in rebellion was rejected, 10 to 29. Various amendment were rejected; one by Mr. Hendricks was adopted, and the bill passed, Yeas, 30; Nays, 4. Adjourned to

then went into Committee of the Whole, and considered the Army bill; votes were taken on several sections, when the House resumed, and a number of bills were reported from Commit-tees, and petitions presented.

CLEAN UP YOUR PREMISES. Hall's Journal of Health has some excellent uggestions on the subject of cleaning premises, etc., which we recommend to the especial st-

cellar to garret, from the street to the rear line of his lot, most scrupulously cleaned, by sweeping, washing and white-washing.

2. Every man who has any authority in city or town governments should consider himself bound by the oath of office, and by every confideration of humanity, to give himself no rest lattheran church, Frement, Address WM. A. DOCELE, Time. Onto.

3. These cleanings should be done now because, if put off until warm weather, the very effort necessary for the removal of filth will only tend, in the essential nature of things, to hasten the appearance of the disease, to increase its malignity, and to extend the time of its devastations; because the sun of spring and summer the sconer warms into life and intensity the vaporic and malignant influence, which in its remorseless tread, wrecks so much human happiness and desolates so many hearth-stones.

GOV. TOD'S IDEA. Gov. Tod has given his opinion in reference to reviving the Democratic party. Senator Sherman tells the story thus: "A modern democrat came to a distinguished democrat of the State of Ohio Gov. Tod) last fall, after the war had ended, and said: "Now, my friend you supported Lincoln all through the war; now the war is over; you have had everything your own way, and now suppose we start again the old Democratic party. "Well," said the old democrat, "I don't know but it would be a good thing to revive and purify the old party; but I would not do it just yet." "Ah," said his friend, when would you do it, then?" My friend, said the Ohio Democrat. "when the Union par-(Gov. Tod) last fall, after the war had endthe Ohio Democrat, 'when the Union party shall have discharged in full all the obligations it has assumed during this war; when it shall have paid every dollar of the national debt incurred during the war; when it shall have punished all the rebels; when, in short, it shall have accomplished all that it has promised to do, then I am the object of the national debt incurred during the war; when it shall have punished all the rebels; when, in short, it shall have accomplished all that it has promised to do, then I am all that it has promised to do, then I am willing that the old democratic party should be revived. I am not willing to trust the democratic party to perform obligations that they composed in their conligations that they opposed in their contracting. PLASTIC SLATE

Plastic State Roof Company, New York:

Gentlemen—Having heard of your new Rooding Material, I concluded to test it on my Moulding Shop, which was much exposed to fire from sparks falling on it whilst my men were casting. I was compelled to have a watch man with a pail of water in his hand, two hours each day, to keep the thing from hurning down. Your new Rooding has removed all danger arising from this source, as it seems to be perfectly fire proof, and water has no more effect upon it than it has on a goore's back. It is not affected by either heat or cold. In short I believe it is destined to go into general use. Many are now using it with the same results about this vicinity.
